  augmented_prompt_agent.py  
2 Dear students,  
3  
4 The capital of France is Paris.  
5  
6 Sincerely,  
7 Your professor  
8 The agent will likely have used it trained model to  
  answer the prompt as no external knowledge was  
  provided to model.  
9 The agent clearly assumed the persona by starting  
  the response with the persona string "Dear students  
  ,"  
10  
11 Process finished with exit code 0  
12
